

SMT Cover Tape Extenders

Cover tape extenders are used when a reel of SMT components doesn't have a leader at the beginning of the reel.

The tape extenders add an additional 396mm (15.6") or a longer length of 508mm (20") of tape as a leader and feed into SMT placement equipment as a piece of cover tape. Without the leader, components are often discarded or have to be repackaged before being used.

These extenders can be used with either paper or plastic tape, punched or formed pockets, from 4mm - 44mm width. No tools required.

PART #	DESCRIPTION	DIMENSIONS	QUANTITY
SR.0504.1	SMT Cover Tape Extender for 4mm Carrier Tape (Yellow)	2.5mm wide x 396mm length	Box of 500
SR.0505.0	SMT Cover Tape Extender for 8/12 mm Carrier Tape (Yellow)	5mm wide x 396mm length	Box of 500
SR.0505.0B	SMT Cover Tape Extender for 8/12mm Carrier Tape (Blue)	5mm wide x 396mm length	Box of 500
SR.0505.1	SMT Cover Tape Extender for 8/12mm Carrier Tape (Yellow)	5mm wide x 508mm length	Box of 500
SR.0505.1BNDL	SMT Cover Tape Extender for 8/12mm Carrier Tape (Yellow)	5mm wide x 508mm length	Box of 50
SR.0509.1	SMT Cover Tape Extender for 16mm Carrier Tape (Yellow)	9mm wide x 508mm length	Box of 500
SR.0518.1	SMT Cover Tape Extender for 24mm Carrier Tape (Yellow)	18mm wide x 508mm length	Box of 250
SR.0525.1	SMT Cover Tape Extender for 32mm Carrier Tape (Yellow)	25mm wide x 508mm length	Box of 250
SR.0532.1	SMT Cover Tape Extender for 44mm Carrier Tape (Yellow)	32mm wide x 508mm length	Box of 250
